CURRENT POSITION

Associate Professor of Systems and Control

San Raffaele University of Rome – Department for the Promotion of Human Science and Quality of Life

PROFILE

Associate Professor of Systems and Control at San Raffaele University of Rome. Research interests: systems and control theory, system identification and data analysis, time-delay systems, positive systems, switched and Markov jump systems, machine learning for control. Strongly motivated towards both teaching and research.

WORK EXPERIENCE

03/11/2025 – Present

Associate Professor (Professore Universitario di Seconda Fascia)

San Raffaele University of Rome (Università Telematica San Raffaele Roma) – Rome, Italy

Department for the Promotion of Human Science and Quality of Life.
Lecturer of *Fondamenti di Automatica* (Fundamentals of Control Systems, 6 ECTS), B.Sc. in Biomedical Engineering.

08/11/2024

Italian National Scientific Qualification (ASN 2023/2025) as Associate Professor

Abilitazione Scientifica Nazionale, Sector 09/G1 – Systems and Control Engineering (valid until 08/11/2036).

01/10/2024 – 02/11/2025

Post-doctoral Research Fellow

University of L'Aquila – L'Aquila, Italy

Project: *Advanced analysis, estimation and filtering methods for stochastic systems with applications to vehicle localization*.
Supervisor: Prof. Costanzo Manes. Ex-Emerge Centre of Excellence.

09/2014 – 2026

Teaching activity (Adjunct Professor and Teaching Assistant)

University of L'Aquila – L'Aquila, Italy

Courses taught in degree programmes of the University of L'Aquila:

- *Control Systems and Machine Learning* (in English), degree programme in Mathematical Engineering: 30 hours (3 ECTS), a.y. 2025/26.
- *Identification and Machine Learning for Control Systems* (in English), M.Sc. in Control Systems Engineering: 30 hours (3 ECTS), a.y. 2024/25 and 2025/26.
- *Robotica industriale* (Industrial Robotics): 30 hours (3 ECTS), a.y. 2024/25; 20 hours (2 ECTS), a.y. 2025/26.
- *Teoria dei sistemi* (Systems Theory), B.Sc. in Information Engineering: 30 hours (3 ECTS), a.y. 2019/20 to 2024/25.
- *System Identification and Data Analysis* (in English): 30 hours (3 ECTS), a.y. 2019/20 to 2021/22; 45 hours (4.5 ECTS), a.y. 2022/23; 60 hours (6 ECTS), a.y. 2023/24 (later renamed *Identification and Machine Learning for Control Systems*).

Ph.D. course:

- *From Least Squares to Subspace Identification*, National Ph.D. Program in Autonomous Systems (DAUSY), a.y. 2023/24 (February–March 2024): 20 hours (2 ECTS), in English.

Teaching assistant (exercises and seminars) for courses of the University of L'Aquila:

- *Teoria dei sistemi* (Systems Theory), Prof. Costanzo Manes (a.y. 2014/15 to 2018/19).
- *Robotica industriale* (Industrial Robotics), Prof. Costanzo Manes (a.y. 2015/16, 2016/17, 2018/19).
- *Identificazione dei sistemi e analisi dei dati* (later *System Identification and Data Analysis*), Prof. Alfredo Germani (a.y. 2015/16, 2016/17, 2018/19).
- *Complementi di automatica* (later *Advanced Control Systems*), Prof. Alfredo Germani (a.y. 2015/16, 2016/17, 2018/19).
- *Systems Biology* (in English), Prof. Pasquale Palumbo (a.y. 2015/16).

01/08/2019 – 31/07/2024

Assistant Professor (fixed-term Researcher, RTD-A)

University of L'Aquila – L'Aquila, Italy

- 01/08/2019 – 31/07/2022: Researcher (art. 24, par. 3, letter a, Law 240/2010), PON Ricerca & Innovazione 2014–2020 programme (AIM1877124 – Activity 1).
- 01/02/2021 – 31/07/2021: Visiting researcher at the ICTEAM Institute, Université catholique de Louvain (Belgium), team of Prof. Raphaël M. Jungers.
- 01/08/2022 – 31/07/2024: Researcher (art. 24, par. 3, letter a, Law 240/2010) funded by the DM737 PNR DISIM and Ex-Emerge projects.

01/02/2018 – 31/07/2019

Post-doctoral Research Fellow

University of L'Aquila – L'Aquila, Italy

Project: *Model identification for large-scale cyber-physical systems*.
Supervisors: Prof. Costanzo Manes and Prof. Alessandro D'Innocenzo.

EDUCATION AND TRAINING

01/11/2014 – 14/05/2018

Ph.D. in *Information and Communication Technology*

EQF level 8

University of L'Aquila – L'Aquila, Italy

Thesis: *Internally Positive Representations and Stability Analysis of Linear Delay Systems*.
Research topics: systems and control theory, with focus on the stability of time-delay systems; system identification.
Supervisor: Prof. Costanzo Manes; co-advisor: Prof. Alfredo Germani.

08/2010 – 25/07/2014

M.Sc. in Computer and Systems Engineering

EQF level 7

University of L'Aquila – L'Aquila, Italy

Final grade: **110/110 cum laude**, with special mention for academic career and thesis.
Thesis: *Polynomial filtering of nonlinear systems by output injection* (in Italian). Advisor: Prof. Alfredo Germani.

08/2006 – 17/12/2010

B.Sc. in Computer and Systems Engineering

EQF level 6

University of L'Aquila – L'Aquila, Italy

Final grade: 107/110.
Thesis: *Robot motion planning and obstacle avoidance* (in Italian). Advisor: Prof. Costanzo Manes.

PERSONAL SKILLS

Mother tongue: Italian

Other languages

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	C2	C2	C2	C2	C2

© European Union, 2002 – 2026 | https://europass.europa.eu

PhD English Course, University Language Center, University of L'Aquila (2016) – level attained: C2

Levels: A1 and A2: Basic user – B1 and B2: Independent user – C1 and C2: Proficient user
Common European Framework of Reference for Languages

Communication and interpersonal skills: Excellent communication skills and a strong aptitude for interacting with people from different cultures and countries, developed through numerous collaborations and the international environment of research and teaching.

Organisational skills: Excellent teamwork and individual working skills; always open to new collaborations and to building good relationships with colleagues. Skills acquired as a student and cultivated in every working and social experience, thanks to numerous national and international collaborations and to the organisation of invited sessions, special issues and seminar series.

Other contributions

peer-reviewed book chapters, conference and workshop papers

- 3 book chapters (1 invited and submitted, Springer, 2026)
- 17 papers in international peer-reviewed conferences (3 invited), including IEEE CDC, IFAC World Congress, ACC/ECC, IFAC ADHS, CoDIT, MED, IEEE CASE, FUSION
- 3 contributions to international peer-reviewed workshops and symposia (2 invited)
- 5 papers in national peer-reviewed conferences (Automatica.it)

TALKS

Invited seminars and talks

- "Learning Dynamical Models from Data: A Short Journey Through Linear System Identification", *Matematica in Azione* seminar series (UNIMIB SIAM Student Chapter), Department of Mathematics and Applications, University of Milano-Bicocca, Italy, 16 October 2026.
- Speaker at Expo Dubai 2020: "Systems, Machine Learning and Artificial Intelligence for autonomous and cooperative driving", in the event *Connected vehicles, IoT and machine learning for intelligent transport systems*, 30 January 2022.
- "A positivity-based approach to stability and learning", UCLouvain (research group of Prof. R. M. Jungers), virtual, February 2021.

Main conference presentations

- "First-moment stability conditions for continuous-time Markov Jump Linear Systems with stationary and time-varying transition rates", *IEEE 63rd Conference on Decision and Control (CDC 2024)*, Milan, Italy, 16–19 December 2024.
- "On Delay-Independent Stability and Guaranteed Convergence Rate for Linear Time-Varying Continuous-Time Delay Systems", *IEEE 62nd Conference on Decision and Control (CDC 2023)*, Singapore, 13–15 December 2023.
- "Some remarks on the stability of time-varying discrete-time positive delay systems", *9th IEEE/IFAC International Conference on Control, Decision and Information Technologies (CoDIT 2023)*, Rome, Italy, 3–6 July 2023.
- "Adaptive Mixture Model Reduction based on the Composite Transportation Dissimilarity", *26th International Conference on Information Fusion (FUSION 2023)*, Charleston, USA, 27–30 June 2023.
- "First-moment stability of Markov Jump Linear Systems with homogeneous and inhomogeneous transition probabilities", *IEEE 61st Conference on Decision and Control (CDC 2022)*, Cancún, Mexico, 6–9 December 2022.
- "Recent results on the analysis and estimation of linear switched models by their equivalence to delay systems", *3rd DECOD Workshop – DElays and COnstraints in Distributed parameter systems*, CentraleSupélec, Gif-sur-Yvette, France, 23–26 November 2021. **Invited**.
- "On the Stability of Switched ARX Models, with an Application to Learning via Regression Trees", *7th IFAC Conference on Analysis and Design of Hybrid Systems (ADHS 2021)*, Brussels, July 2021 (virtual edition). **Invited**.
- "A comparison of classical identification and learning-based techniques for cyber-physical systems", *29th IEEE Mediterranean Conference on Control and Automation (MED 2021)*, Bari, June 2021 (virtual edition). **Invited**.
- "On the stability of discrete-time linear switched systems in block companion form", *21st IFAC World Congress*, Berlin, July 2020 (virtual edition).
- "On the stability of coupled differential-difference systems with multiple time-varying delays: a positivity-based approach", *58th IEEE Conference on Decision and Control (CDC 2019)*, Nice, France, December 2019.
- "Internally Positive Representations and Stability Analysis of Linear Differential Systems with Multiple Time–Varying Delays", *20th IFAC World Congress*, Toulouse, France, July 2017.

© European Union, 2002 – 2026 | https://europass.europa.eu

- "Identification of Forward and Feedback Transfer Functions in Closed–Loop Systems with Feedback Delay", *20th IFAC World Congress*, Toulouse, France, July 2017.
- "Internally Positive Representations and Stability Analysis of Linear Delay Systems with Multiple Time-Varying Delays", *International Symposium on Positive Systems (POSTA 2016)*, Rome, Italy, September 2016.

EDITORIAL AND SERVICE ACTIVITIES

International journals

- *International Journal of Robust and Nonlinear Control* (2024, vol. 34, issue 10): co-organizer (corresponding) and Guest Editor of the special issue "Time-delay systems: recent trends and applications".

Editorial boards and technical committees

- Member of the IEEE Control Systems Society (IEEE CSS) Conference Editorial Board, since 2024.
- Member of the European Control Association (EUCA) Conference Editorial Board, since 2024.
- Member of the IFAC Technical Committee 2.2 – Linear Control Systems, since 2023.

International conferences

- *9th IFAC Conference on Analysis and Design of Hybrid Systems (ADHS 2027)*: Local Arrangement Chair, Program Committee member and Associate Editor.
- *2027 American Control Conference (ACC 2027)*: Associate Editor.
- *25th European Control Conference (ECC 2027)*: Associate Editor.
- *65th IEEE Conference on Decision and Control (CDC 2026)*: Associate Editor.
- *2026 American Control Conference (ACC 2026)*: Associate Editor.
- *24th European Control Conference (ECC 2026)*: Associate Editor.
- *2025 American Control Conference (ACC 2025)*: Associate Editor.
- *23rd European Control Conference (ECC 2025)*: Associate Editor.
- *33rd IEEE Mediterranean Conference on Control and Automation (MED 2025)*: Associate Editor.
- *22nd European Control Conference (ECC 2024)*: Associate Editor.
- *62nd IEEE Conference on Decision and Control (CDC 2023)*: co-chair of the session "Linear Systems III".
- *9th IEEE/IFAC International Conference on Control, Decision and Information Technologies (CoDIT 2023)*: chair of the session "Linear Systems".
- *61st IEEE Conference on Decision and Control (CDC 2022)*: co-organizer (corresponding) and chair of the invited session "Stability and stabilization of Time-Delay Systems: recent trends and applications"; co-chair of the session "Switched Systems II".
- *30th IEEE Mediterranean Conference on Control and Automation (MED 2022)*: Associate Editor.
- *7th IFAC Conference on Analysis and Design of Hybrid Systems (ADHS 2021)*: Program Committee member (Repeatability Evaluation); co-organizer (corresponding) and co-chair of the invited session "Data-driven methods for hybrid systems".
- *29th IEEE Mediterranean Conference on Control and Automation (MED 2021)*: Associate Editor; co-chair of the session "Data Mining and Control Tools Applications for Complex Systems".
- *58th IEEE Conference on Decision and Control (CDC 2019)*: co-chair of the session "Delay Systems I".

Reviewing activity

Reviewer for the main journals in systems and control theory, including: *IEEE Transactions on Automatic Control*, *Automatica*, *Systems & Control Letters*, *Nonlinear Analysis: Hybrid Systems*, *IET Control Theory & Applications*, *SIAM Journal on Control and Optimization*, *IEEE Control Systems Letters*, *International Journal of Control*, *IEEE Access*, *European Journal of Control*, *Mathematical Problems in Engineering* (Hindawi); and for the main conferences in the field: IFAC World Congress, IEEE CDC, ECC, ACC, IFAC ADHS, IFAC NecSys, MED, IECON, POSTA.

Seminar organization

Organizer of the Ex-Emerge seminar series of the Ex-Emerge Centre of Excellence, University of L'Aquila.

© European Union, 2002 – 2026 | https://europass.europa.eu

RESEARCH PROJECTS

- *Constrained direct data-driven control: theory and applications* (University research projects for basic research and research start-up – Progetti di Ateneo per la Ricerca di base e Avvio alla Ricerca), University of L'Aquila. **Principal Investigator** (07/04/2025 – 30/09/2025).
- *EMERGE* (Ex-Emerge Centre of Excellence, University of L'Aquila). Researcher (08/2022 – 07/2024); post-doctoral research fellow (10/2024 – 11/2025).
- *PON Ricerca & Innovazione 2014–2020* (AIM1877124 – Activity 1). Researcher (08/2019 – 07/2022).
- *SAFECOP* – Safe Cooperating Cyber-Physical Systems using Wireless Communication (www.safecop.eu). Post-doctoral researcher (02/2019 – 07/2019).
- *INCIPICT* – Innovating City Planning through Information & Communications Technology (incipict.univaq.it). Post-doctoral researcher (02/2018 – 01/2019).
- *AQUAS* – Aggregated Quality Assurance for Systems (aquas-project.eu). Post-doctoral researcher.

THESIS SUPERVISION

M.Sc. theses

- A. Gianfrancesco, "Digital Twin Development for Vacuum Chamber Pressure Dynamics", University of L'Aquila and Université Grenoble Alpes, 2025. Co-supervisor.
- P. S. Romanenco, "Pre-processing and analysis of CAN data for driving scenario recognition and classification", University of L'Aquila and Université Grenoble Alpes, 2025. Co-supervisor.
- M. O. Castor Guerrero, "Battery Entropic Heat Coefficient Estimation with Unscented Kalman Filter and Machine Learning Techniques", University of L'Aquila, E-PiCo international consortium, 2023. Supervisor.
- V. Mattei, "Machine Learning methods for System Identification", University of L'Aquila, 2020. Supervisor.
- D. Costantini, "Identificazione su sottospazi di una classe di sistemi non lineari" (supervisor: Prof. C. Manes), University of L'Aquila, 2017. Co-supervisor.
- F. Marcella, "Autonomous multi-robot coverage control" (supervisor: Prof. C. Manes), University of L'Aquila, 2015. Co-supervisor.

B.Sc. theses

- K. Shehu, "Studio e implementazione di tecniche di controllo Over-the-Air con stima dello stato tramite Filtro di Kalman" (supervisor: Prof. P. Di Marco), University of L'Aquila, 2026. Co-supervisor.
- C. Muzi, "Controllo Data-Driven di Sistemi Lineari: Stabilizzazione e Assegnazione degli Autovalori" (co-supervisor: Prof. C. Manes), University of L'Aquila, 2026. Supervisor.
- D. Del Vecchio, "Modellistica e controllo anti-oscillazione per carriponte" (supervisor: Prof. C. Manes), University of L'Aquila, 2025. Co-supervisor.
- A. Morgante, "L'approccio informativo per l'analisi e il controllo data-driven di sistemi lineari" (supervisor: Prof. C. Manes), University of L'Aquila, 2024. Co-supervisor.

- L. Oddis, “Modello e controllo di esoscheletri” (supervisor: Prof. C. Manes), University of L’Aquila, 2015. Co-supervisor.

Excellence programmes

Co-supervision of two students of the Path to Excellence Program (PEP) of the DISIM Department, University of L’Aquila, in collaboration with the European Embedded Control Institute (EECI).

CERTIFICATIONS AND COURSES

- Remote pilot certificate for UAS (non-critical operations), EASA/ENAC, valid until June 2025.
- PhD school HYCON-EECI “Hybrid Control Design” (Prof. Ricardo G. Sanfelice), L’Aquila, May 2019.
- PhD school “Model Predictive Control” (Prof. Alberto Bemporad), IMT Lucca, March–April 2019.
- PhD school “Introduction to Machine Learning” (Prof. Marcello Restelli), Gran Sasso Science Institute, L’Aquila, February 2019.
- PhD school “Formal Methods for the Control of Large-scale Networked Nonlinear Systems with Logic Specifications” (various lecturers), L’Aquila, May 2017.
- PhD school HYCON-EECI “Time-Delay and Sampled-Data Systems” (Profs. Emilia Fridman and Pierdomenico Pepe), L’Aquila, February 2017.
- PhD summer school SIDRA 2016 “Robust and Distributed Control” (various lecturers), Bertinoro, July 2016.
- PhD English course, University Language Center (Prof. R. G. Begley), L’Aquila, March–July 2016. Level attained: C2.
- PhD school “Introduction to Stochastic Hybrid Dynamical Systems” (Prof. A. R. Teel), Trento, May 2016.
- PhD school HYCON-EECI “Cyber-Physical systems control: Algebraic and Optimization techniques” (Prof. R. Jungers), L’Aquila, April 2016.
- PhD school HYCON-EECI “Tools for nonlinear control, Lyapunov functions, positivity, applications” (Prof. F. Mazenc), L’Aquila, March 2016.
- PhD school “The LMI/BMI Approach to Optimal Control” (Prof. R. D. Braatz), Pavia, September 2015.
- MathWorks, “Introductory course on Matlab and Simulink for Signal Processing”, Pescara, 2009.

ADDITIONAL INFORMATION

Hobbies and interests

I am passionate about literature, poetry, music, photography, cinema and theatre. I am an amateur musician. I enjoy running and swimming; I love nature, and especially the sea. I have written music reviews, reports and short essays for the online magazine *Il Corriere Musicale*; I wrote the liner notes for the album *Mozart: Piano Sonatas K331, K332, K570 – Variations K455*, Davide Cabassi (piano), Decca 4810064. I was interviewed by RSI (Swiss Italian-language public broadcaster) on the history of the compact disc.
